Additional Information

The VSFS program opens up opportunities to build long-term relationships with prospective Russian graduate and university students, advance students' awareness of the American higher education system, and contribute to professional development. This is your chance to participate in establishing collaboration and promote humanitarian ties between the two nations.

"Working with EducationUSA-Russia has been a wonderful experience. The internship is a unique opportunity

to use technology and personal communication as a basis for mutual understanding. You will meet interesting people, share knowledge, sharpen your technology skills, work virtually in another country, and participate in grassroots diplomacy", said Kathleen Kearny, VSFS intern 2015-16.
